### KUBIIC

The University of Kerala established an Industry Incubation Centre and successfully incubated a student startup, Soorya Kiran Bioinformatics Pvt. Ltd. as early as in 2006. The University re-established the Incubation Centre in 2016 and presently it is known as Kerala University Business Innovation and Incubation Centre (KUBIIC). KUBIIC provides space, facilities and mentorship for the startups to function innovatively. KUBIIC encourages the students from every Department to enthusiastically think about innovating products and services from their field to the betterment of the society at large.

### Biovent Innovations Pvt. Ltd.

Biovent Innovations Pvt. Ltd., a Biotechnology startup under KUBIIC incubated in the Department of Biotechnology, University of Kerala. The company is mainly focusing on research leading to product development in Biotechnology and life science field. In addition Biovent undertakes sample analysis, training in various areas and students projects.
